Professional Summary

Full stack engineer with experience building scalable cloud-native and AI-assisted applications across frontend, backend, mobile, and infrastructure environments. Strong foundation in traditional software engineering practices and rapidly adapted to modern AI-assisted development workflows using tools such as Claude AI and ChatGPT to accelerate product development, automation, and delivery.

Work Experience

Freelance | Full Stack Engineer (AI Agent-Enabled)

Riyadh, Saudi Arabia | Bangalore, India | Feb 2026 - Present

- Built a stealth-stage full stack product including Android and iOS apps, backend services, internal dashboards, database architecture, and cloud deployment.
- Leveraged AI-assisted workflows using Claude AI and ChatGPT for architecture design, code generation, debugging, and deployment automation; no public showcase is available due to confidentiality.

Minute Taxi Routing Company | DevOps Engineer

Riyadh, Saudi Arabia | Jan 2024 - January 2026 (In Saudi July 2024 - May 2026)

- Managed AWS infrastructure using ECS, RDS, S3, SES and Route 53 with networking, autoscaling, load balancing and domain management.
- Built CI/CD pipelines and automated deployment workflows for frontend and backend services.
- Developed Java Spring Boot APIs and backend integrations for scalable production systems.
- Utilized ChatGPT to accelerate backend API development, debugging, and engineering workflows.
- Led deployment, monitoring, performance optimization, and cloud cost reduction efforts, reducing infrastructure costs by 40%.
- Mentored a team of 3-4 developers through code reviews, debugging, support and engineering best practices.

Shazab FutureTech Solutions Pvt. Ltd. | Senior Network Engineer

Bangalore, Karnataka, India | Apr 2023 - Jan 2024

- Developed customized Linux packaging and deployment solutions for AI/ML agent software, including versioning, dependency management, testing, and compatibility optimization across client environments.
- Built and customized OPNsense network management plugins using Python, PHP, and JavaScript, enhancing platform functionality through tailored integrations and automation workflows.

- Implemented AWS-based CI/CD pipelines integrating services such as S3, SQS, Lambda, API Gateway, and CloudFront for streamlined deployment operations.
- Developed and refined IAM policies and security controls to strengthen infrastructure security, access management, and compliance standards..

Shazab FutureTech Solutions Pvt. Ltd. | Network Engineer

Bangalore, Karnataka, India | Dec 2021 - Mar 2023

- Performed testing, troubleshooting, and performance validation for enterprise network infrastructure including firewalls, gateways, switches, and access points.
- Customized and rebranded Zabbix and OPNsense platforms using Python, PHP, and JavaScript to deliver client-specific functionality and improved user experience.
- Created technical documentation, analyzed system logs, and resolved infrastructure and networking issues through hands-on routing, switching, and debugging support.

Shazab FutureTech Solutions Pvt. Ltd. | Sales Consultant

Bangalore, Karnataka, India | Feb 2021 - Jun 2021

- In-depth knowledge of the American automotive market, including trends, customer preferences, and competitive landscape.
- Demonstrated success in automotive parts sales, with a strong emphasis on car components and accessories.
- Strong relationship-building skills, effectively collaborating with clients and suppliers to drive business growth.

Education

HKBK College of Engineering | BE in Electrical and Electronics

Bangalore, Karnataka, India | Oct 2016 - Aug 2020 | GPA: 7.12

International Indian School | 12th in Science (PCM)

Jeddah, Saudi Arabia | Mar 2015 - Mar 2016 | GPA: 9.18

International Indian School | 10th

Jeddah, Saudi Arabia | Apr 2013 - Mar 2014 | GPA: 9.40

Skills

Languages & Frameworks: Python, Nodejs, Bash, SpringBoot

Cloud and DevOps: AWS, GCP, Networking, Docker, Terraform, CI/CD

AI & Automation Tools: Claude AI, ChatGPT, prompt engineering

Networking & Systems: Routing & Switching, Firewalls, Network Automation, Linux, FreeBSD, macOS

Infrastructure & Security: IAM Policies, System Troubleshooting, Log Analysis

Packaging & Documentation: Linux software Packaging and Distribution, Dependency Management, Technical and support Documentation
